

HEY HEY HEY  
HEY HEY HEY

Nobody said growing up was easy  
And just when I'm thinking maybe it's all too  
hard  
I imagine I'm Lewis & Clark on the big Missouri  
Or I'm beating a snare drum, leading the battle  
charge

When somebody lead the way  
to the moon or through the Great Depression  
It reminds us that we've got a mission  
And some people to repay

'Cause somebody sets the stage  
to put us in this perfect position  
in a country with a grand tradition  
so anything is possible for you and me today!

We are The Next Great Americans  
Proud to wear the red, white & blue  
The Next Great Americans  
We've got a lot of work to do!

To live and learn and celebrate this country that  
we live in  
To never take for granted the things that we've  
been given!

The Next Great Americans  
HEY HEY HEY  
HEY HEY HEY

We ask for the vision of Einstein and Benjamin  
Franklin  
For the big dreams like Lincoln and Martin  
Luther King

For the wisdom we get from our mothers and  
fathers and teachers  
For the courage of soldiers who give up  
everything

When somebody lead the way  
To the moon or through the Great Depression  
It reminds us that we've got a mission  
And some people to repay

'Cause somebody sets the stage  
to put us in this perfect position  
in a country with a grand tradition  
so anything is possible for you and me today!

We are The Next Great Americans  
Proud to wear the red, white & blue  
The Next Great Americans  
We've got a lot of work to do!

To live and learn and celebrate this country that  
we live in  
To never take for granted the things that we've  
been given!

We're taking up the torch, making big plans  
If you're looking for your leaders we raise up our  
hands

We raise up our hands  
Raise up our hands  
Raise up our hands!

The Next Great Americans  
The Next Great Americans  
The Next Great Americans  
HEY HEY HEY  
HEY HEY HEY  
HEY HEY HEY
